PARENTS' PORTAL TO THE SPIRITUAL WORLD

Come converse in a lively discussion about various spiritual topics related to children while enjoying Taspen's finest teas and healthy granola bars. **Or attend via a conference call!**

Each month we'll explore a new subject...

- Parenting the new generation of intuitive children
- Why kids can sense spirits & what to do about it
- Clearing your house of unwanted energies
- Using the Law of Attraction to calm conflicts
- Tools that could ease bedtime fears
- Ways to spiritually protect your child in new circumstances
- How a person's anxiety can affect your child's energy field

Plus...

- Tapping into your psychic side to keep up with your young ones
- Meeting your spirit guide to help you with important decisions
- Knowing when your child might have a heavy aura & how to clear it
- Children's books that empower and provide a sense of self-worth

Gatherings will also include Q&A time for any current issues with children as well as occasional demonstrations, exercises and meditations. The curious without kids are welcome too!
